convercent™
Ethics through insight.

Policy Center

Providing an integrated platform that illuminates and aligns internal policies, federal regulations, employee understanding and company performance.

Comprehensive policies help tie your underlying values to individual behavior throughout your organization. They express your intentions as a company and describe your regulatory responsibilities.

Convercent seamlessly ties your policy health to your wider compliance campaigns and initiatives to build thriving company cultures. Combined with information about your values, as well as incident reports and trainings, Convercent provides unprecedented insight into your organization's health.

All of your policies in one central location...

Convercent's policy center is fast to set up and has an intuitive user interface that is easy to use. It allows you to store and categorize policies in one convenient location. A task wizard guides you through the creation or uploading of your documents.
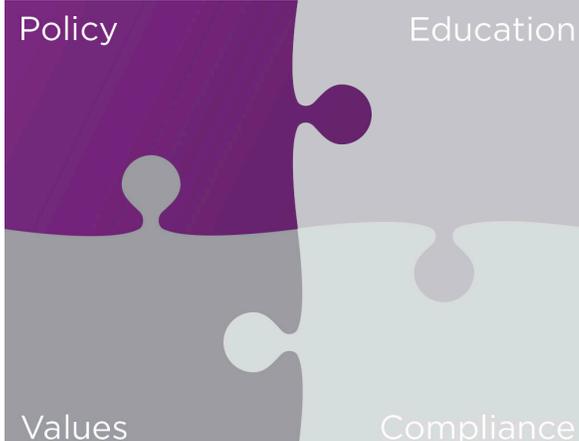

Delivered to the right people at the right time...

It's no good to have comprehensive policies if no one reads or understands them. Convercent's Campaign Management tool enables you to schedule and deliver documents whenever and wherever they are needed. Segment your campaigns by location or department, or even target individual employees. Include training materials to boost employee engagement. When a policy is up for review, set a task reminder so that the responsible parties are aware it is due.
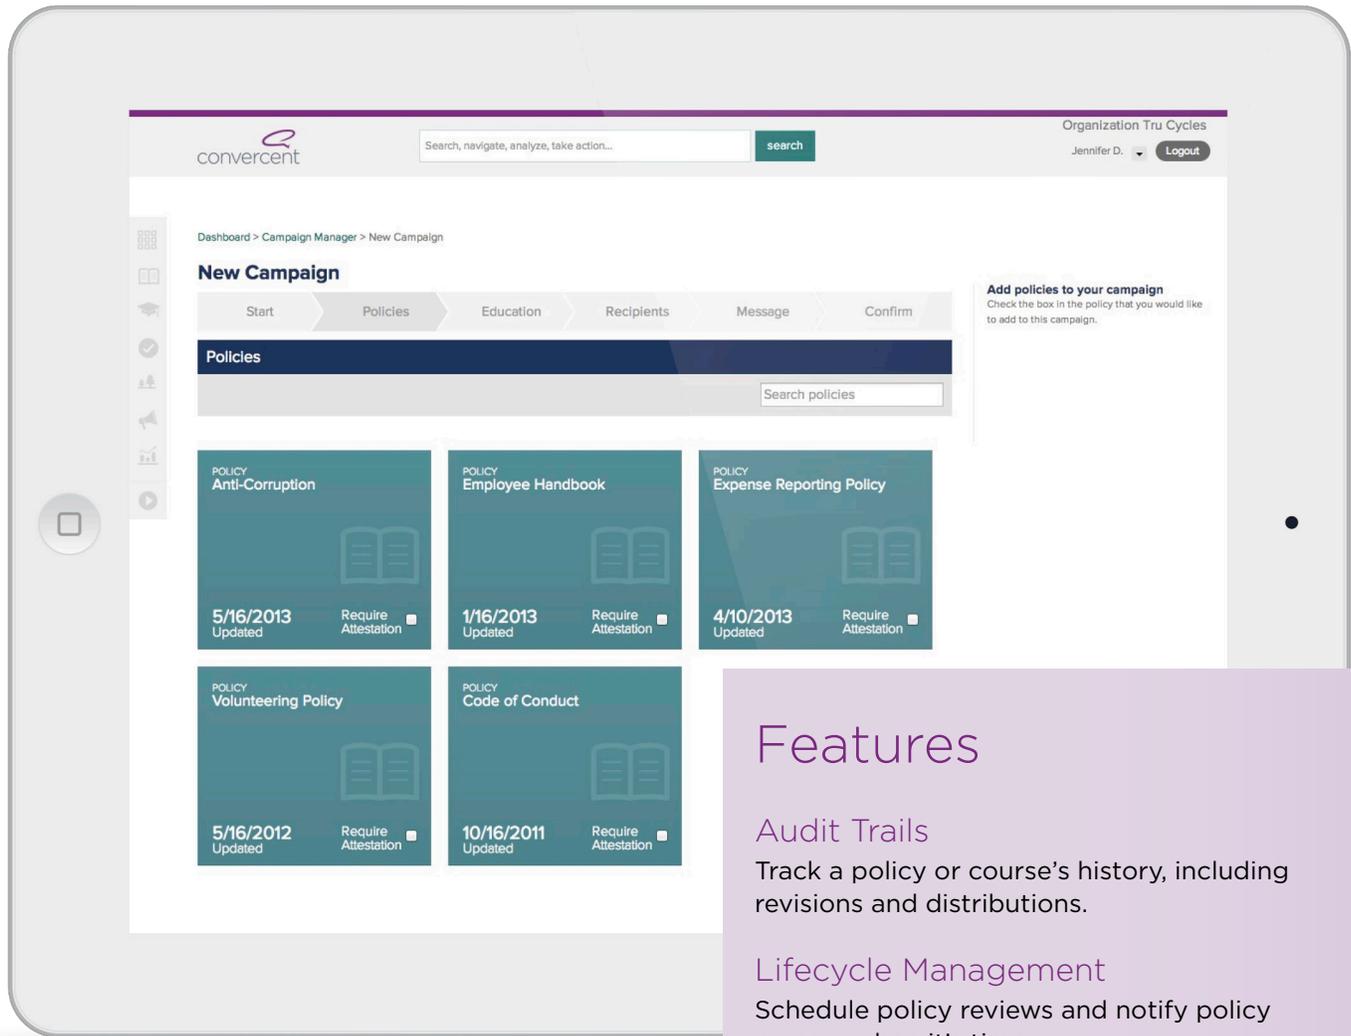

Two-way communications keep employees engaged. They can access Convercent from any device to text, email or call with policy concerns or real-time questions.

Providing you unprecedented insight to improve your organizational health.

Convercent gives you a moment-by-moment window into the policy understanding and health of your company. When you connect your organization's values to the policies that embody them, the predictive clarity sharpens. Visibility into the alignment between policies and ethics throughout your organization enables intelligent, proactive responses to prevent problems before they arise.

Convercent's policy library allows you to create, store and categorize all policies in one convenient location.
